Nineteen hundred seventy one,
a year of changes, including
major revolution in the base-
ment of Randolph in which
the old tradition of conventional
yearbook style was overthrown
and replaced by a type of
yearbook that is less formal,
more imaginative, and rather
individualistic.

You're lookin' at it!!

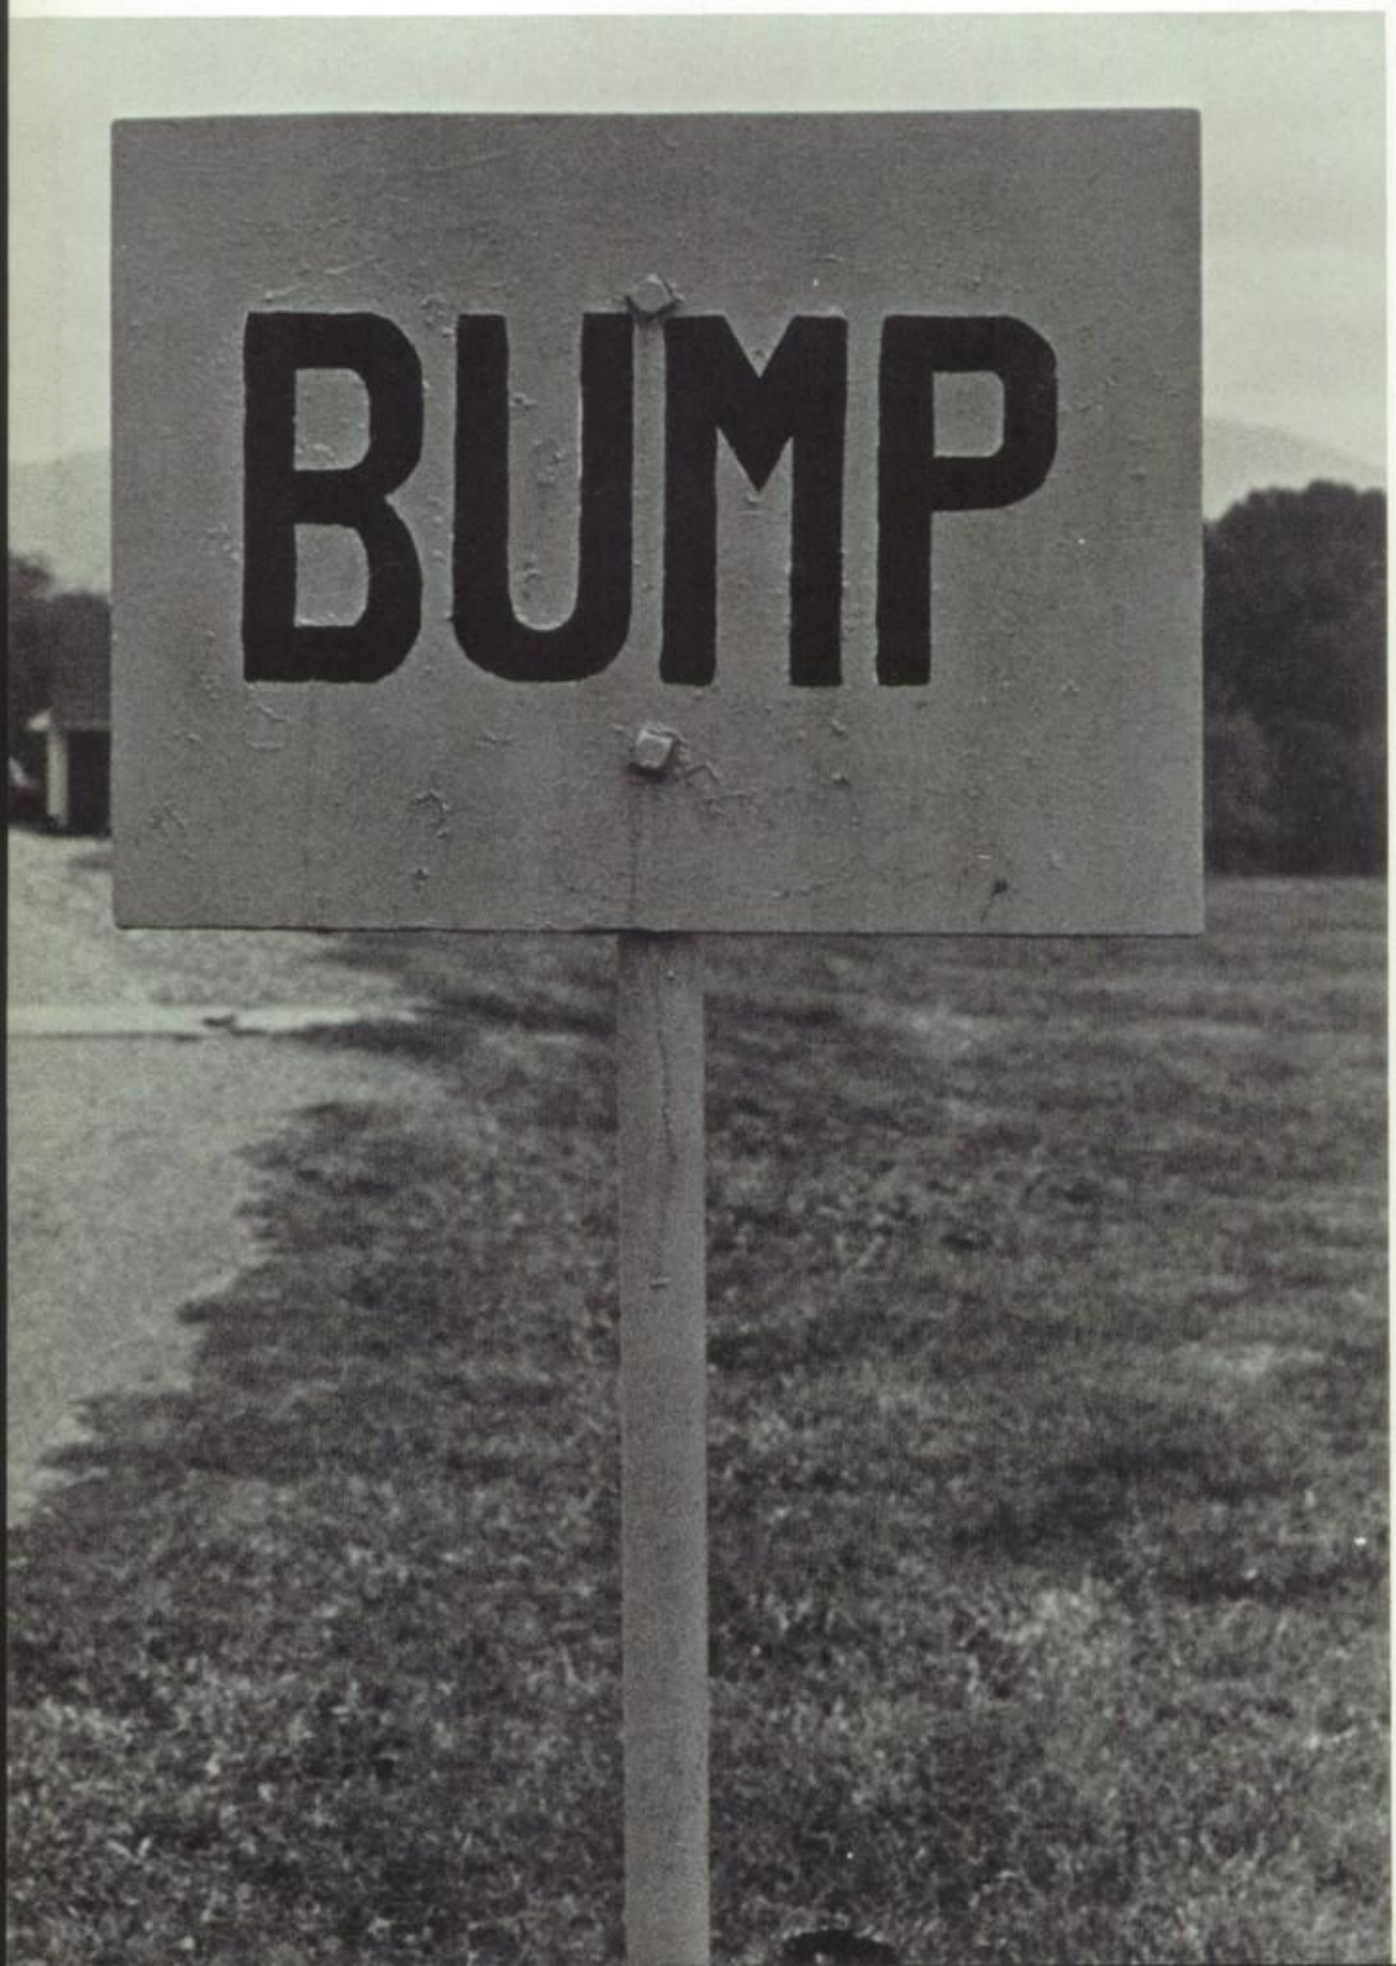
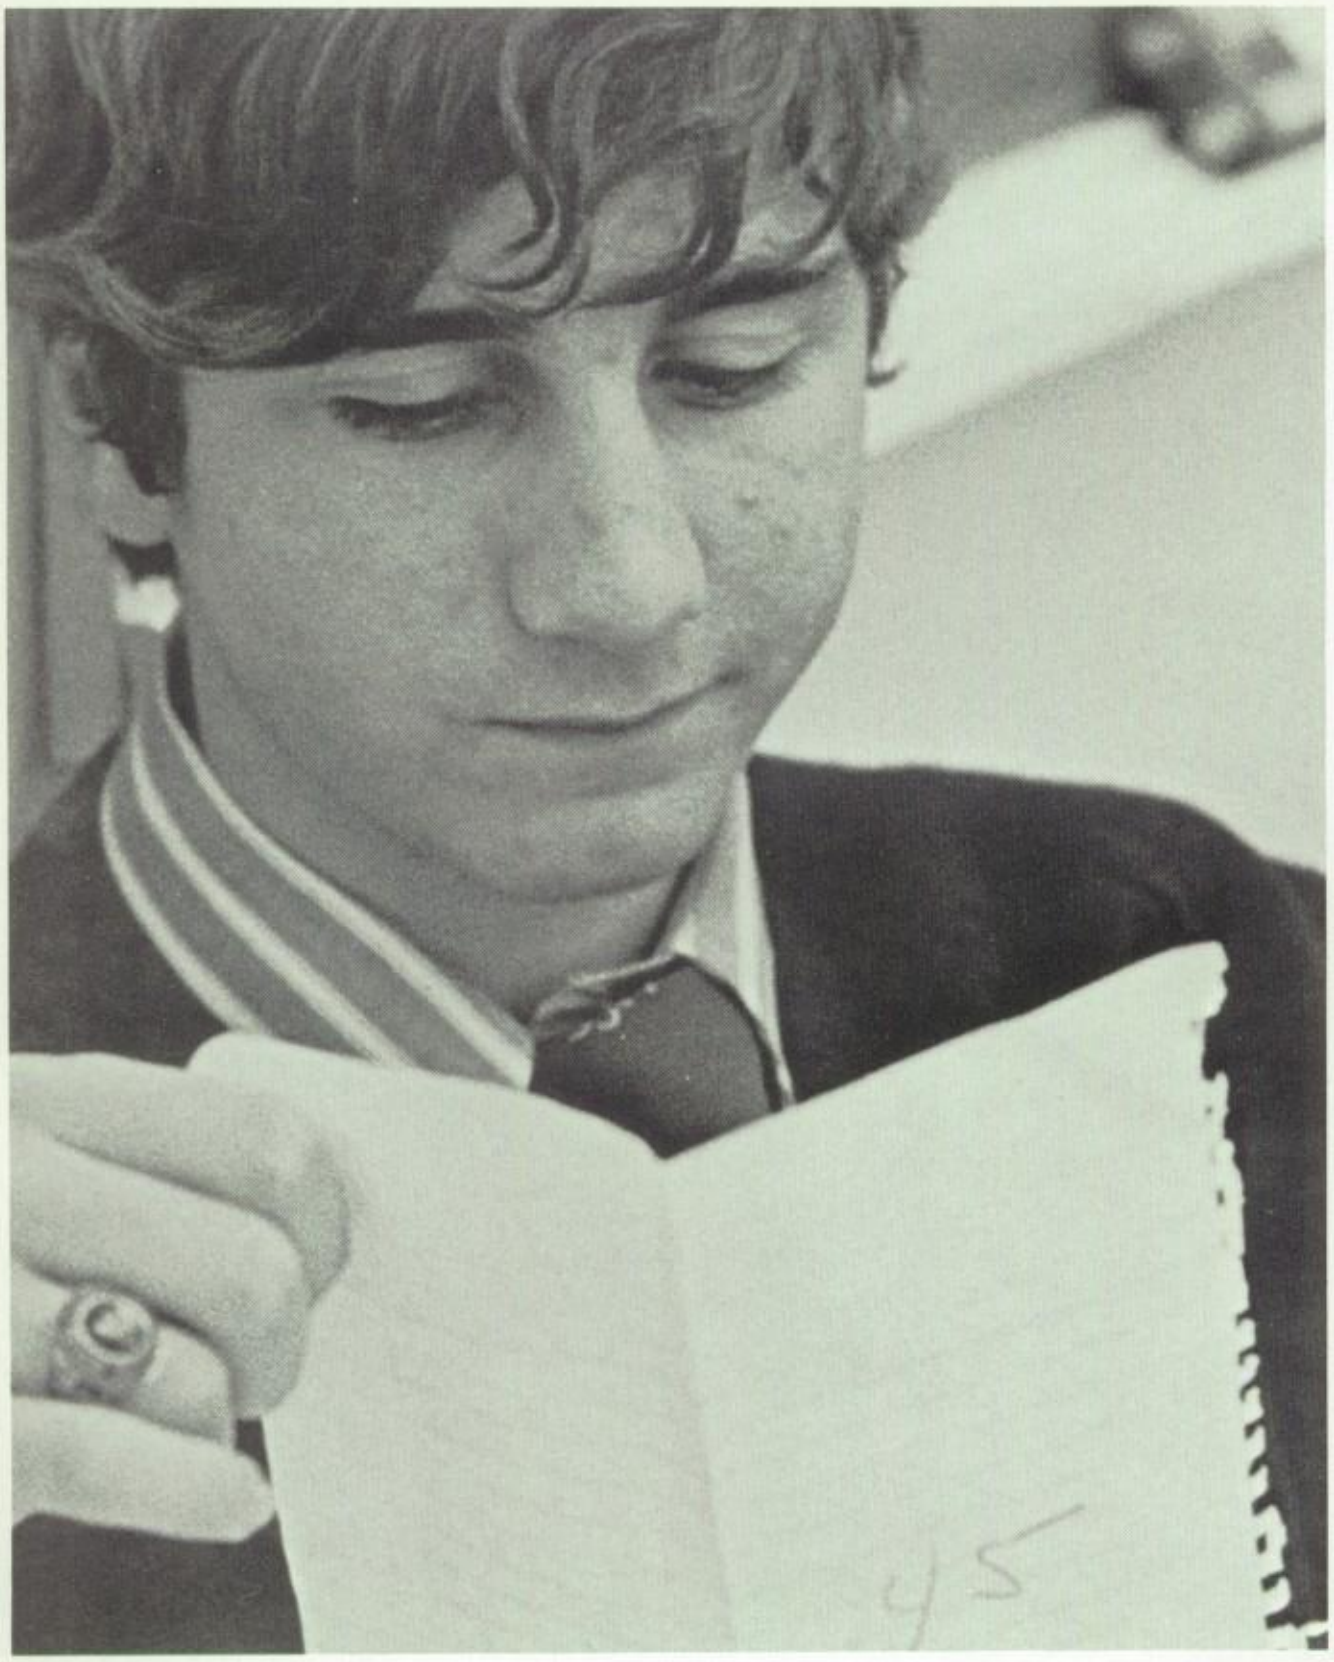
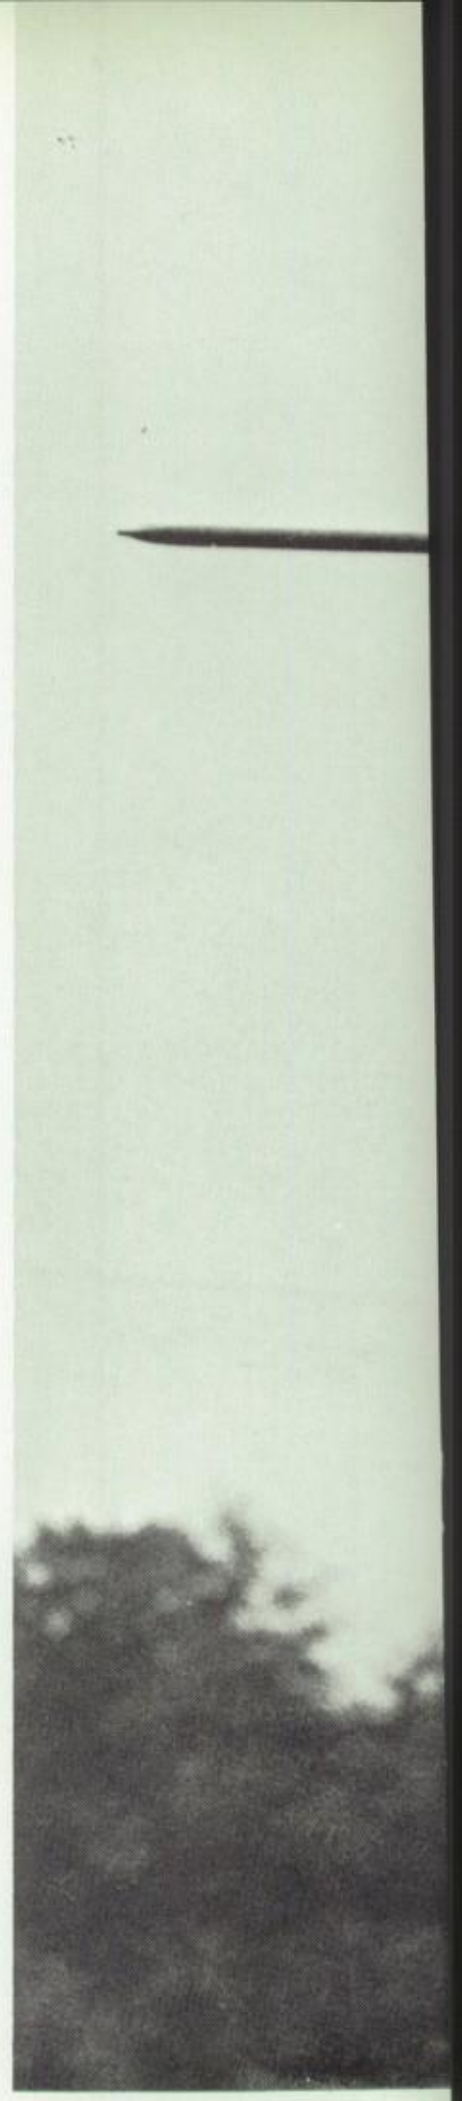
Seniors ..... page 122

The onset of the V.E.S. experience often comes as a jolt to those who



have glided along dependent upon others; some





people are shafted by academics, still others

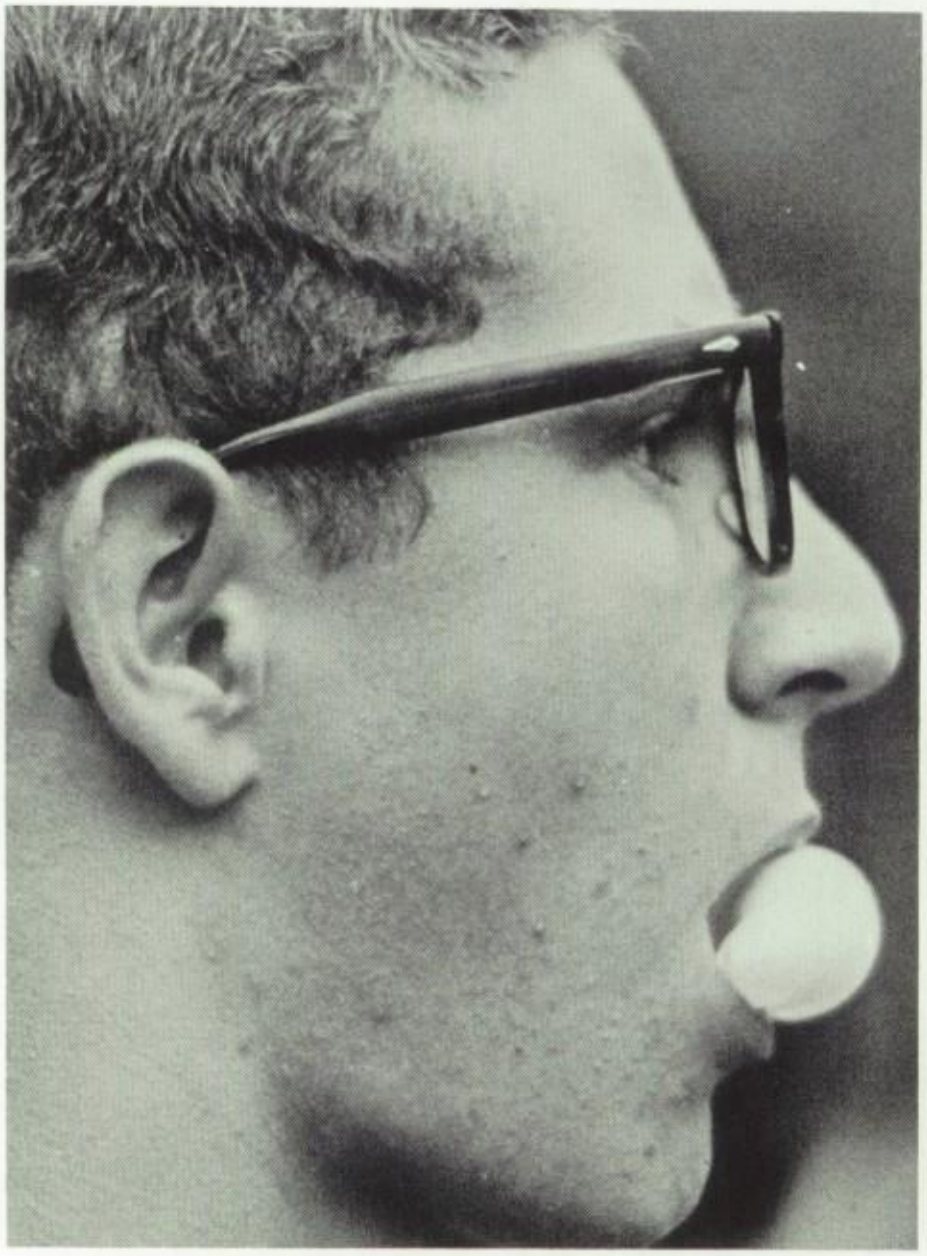
find athletics a hassle. But then there are

moments of relaxation and the chance to revert

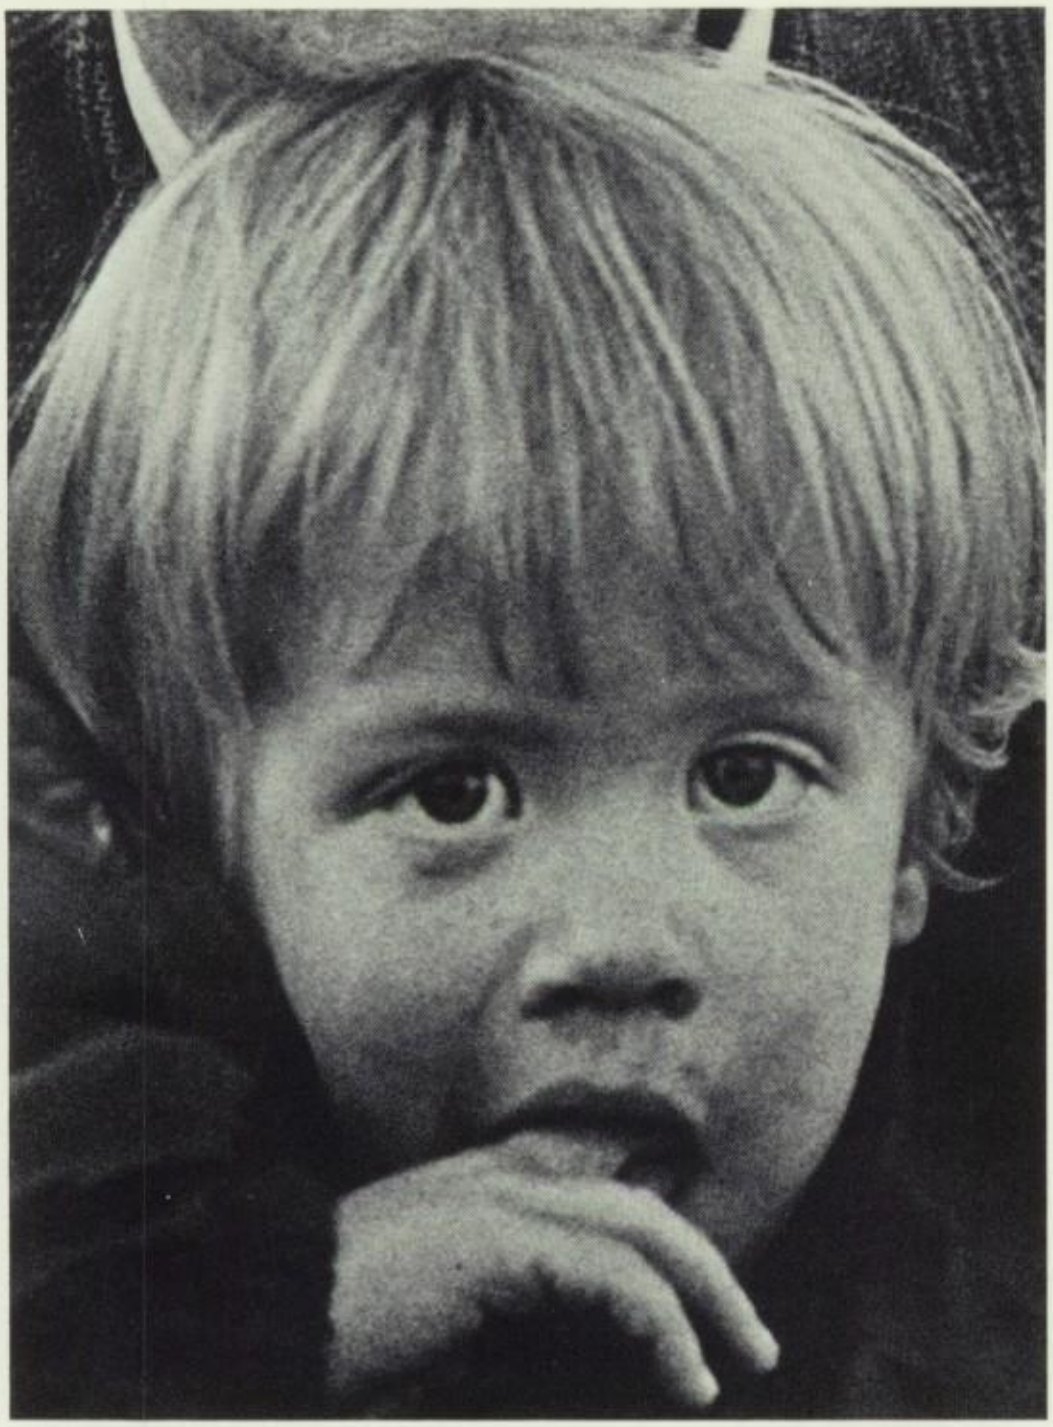
to extra-curricular activities ....

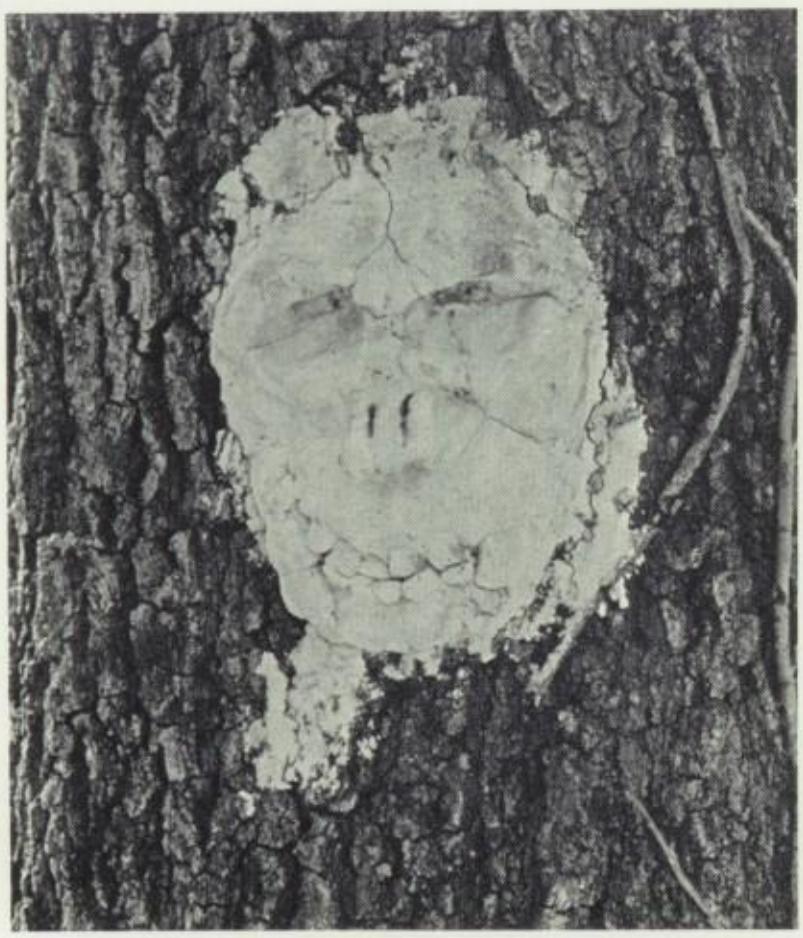
Total escape is impossible; your every move is analyzed

with utmost scrutiny by your peers; you can't hide.



It's enough to make some people





go bananas !!

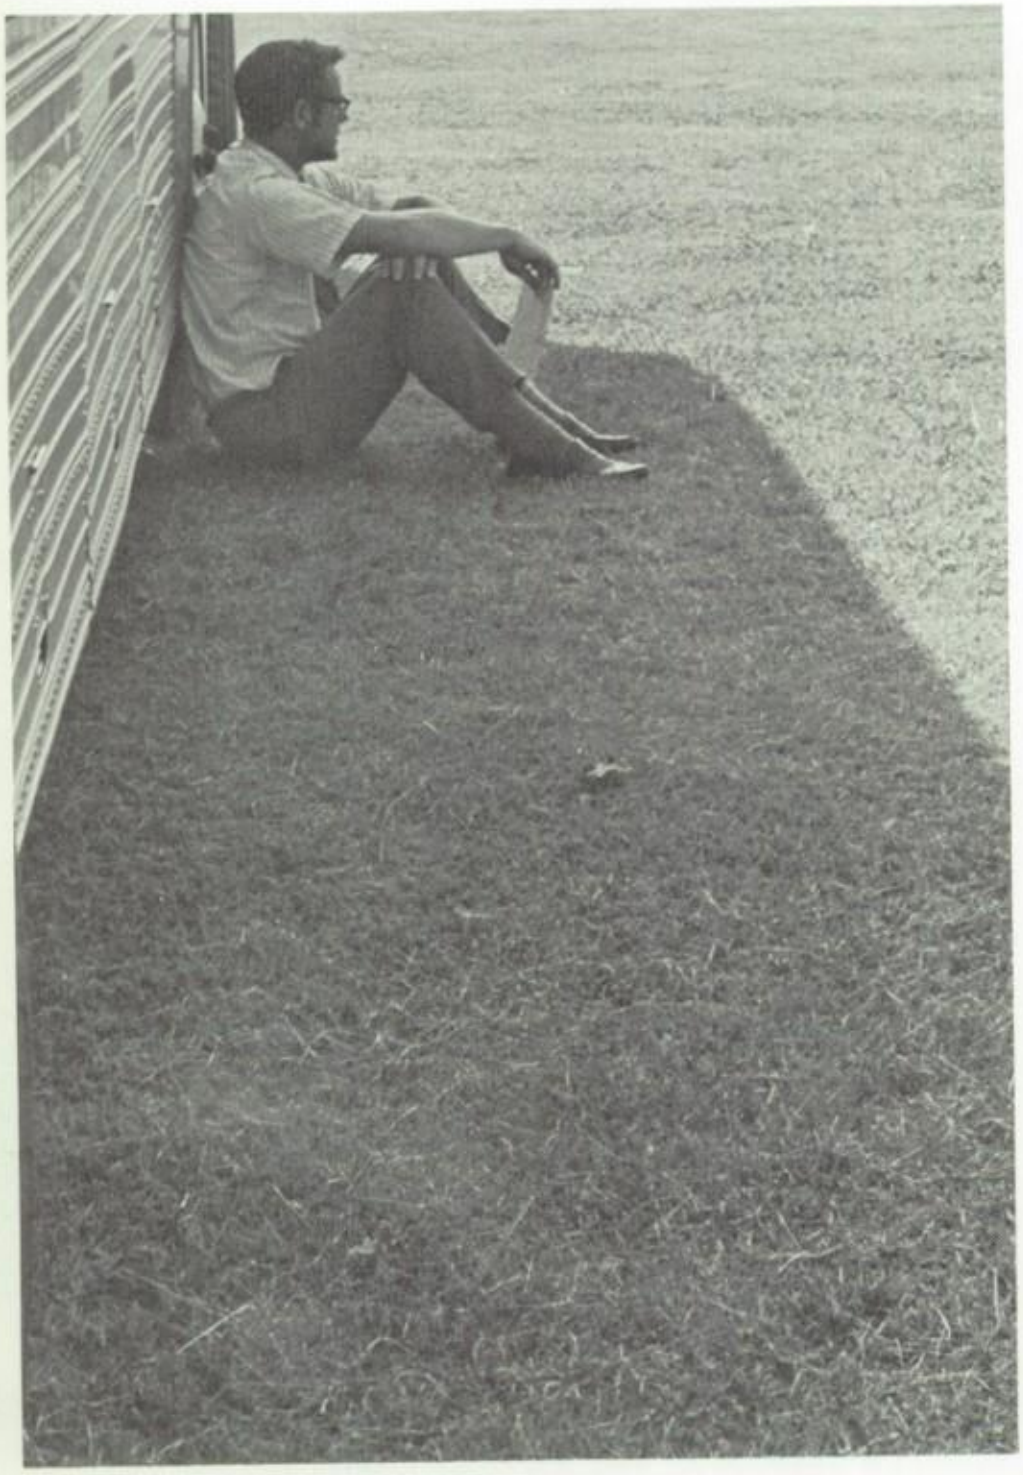
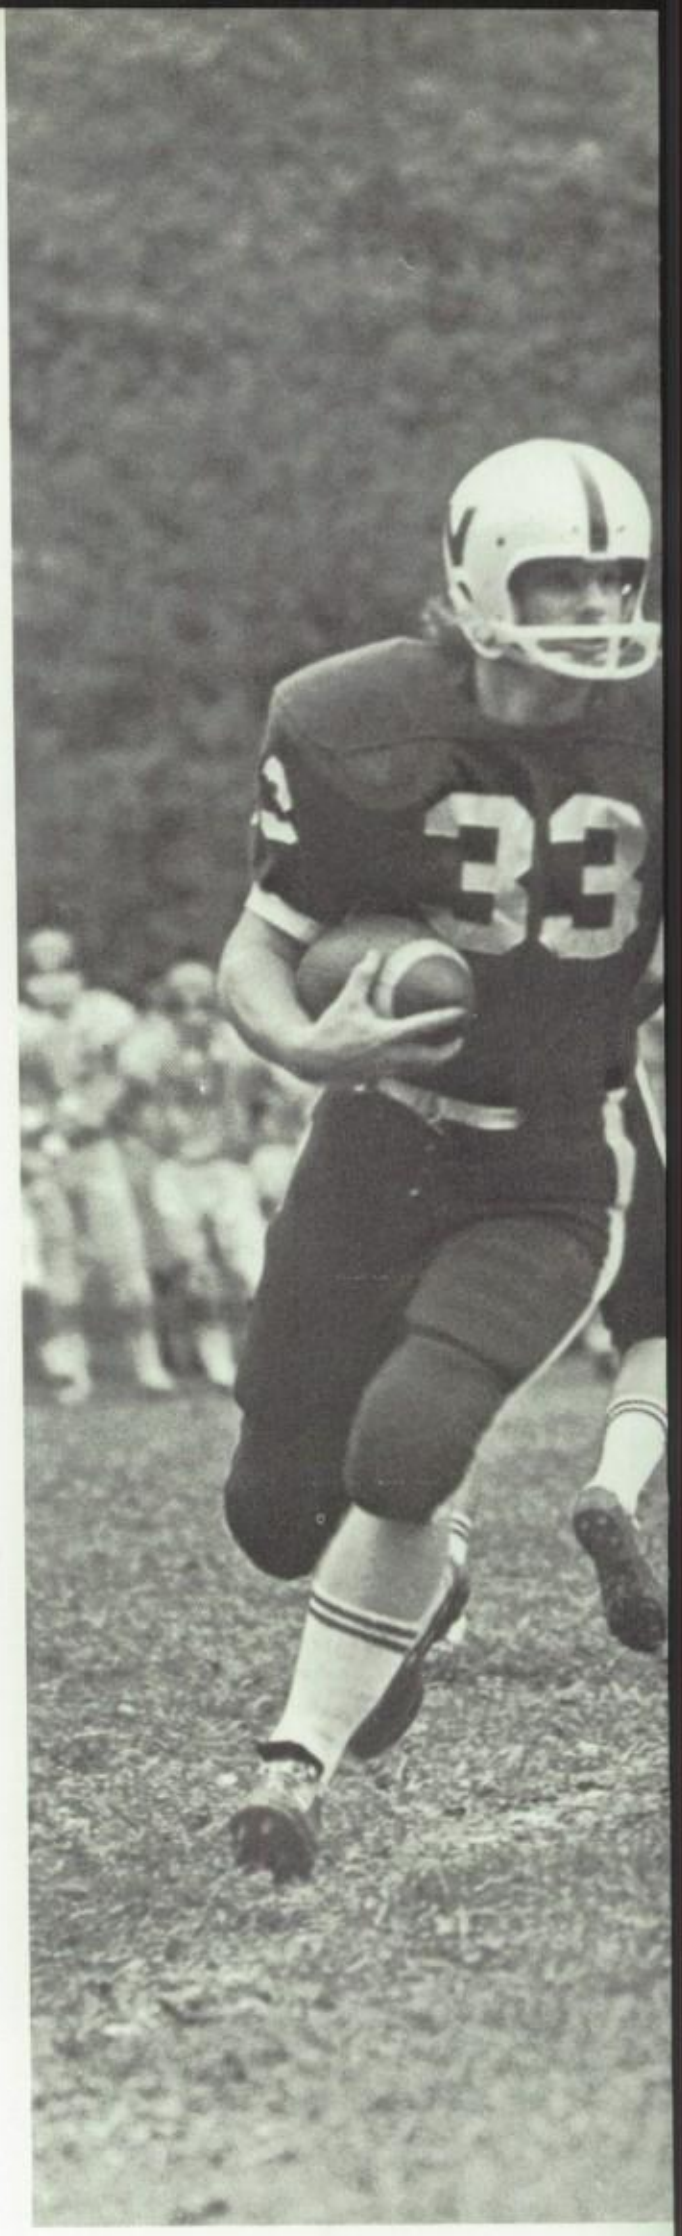
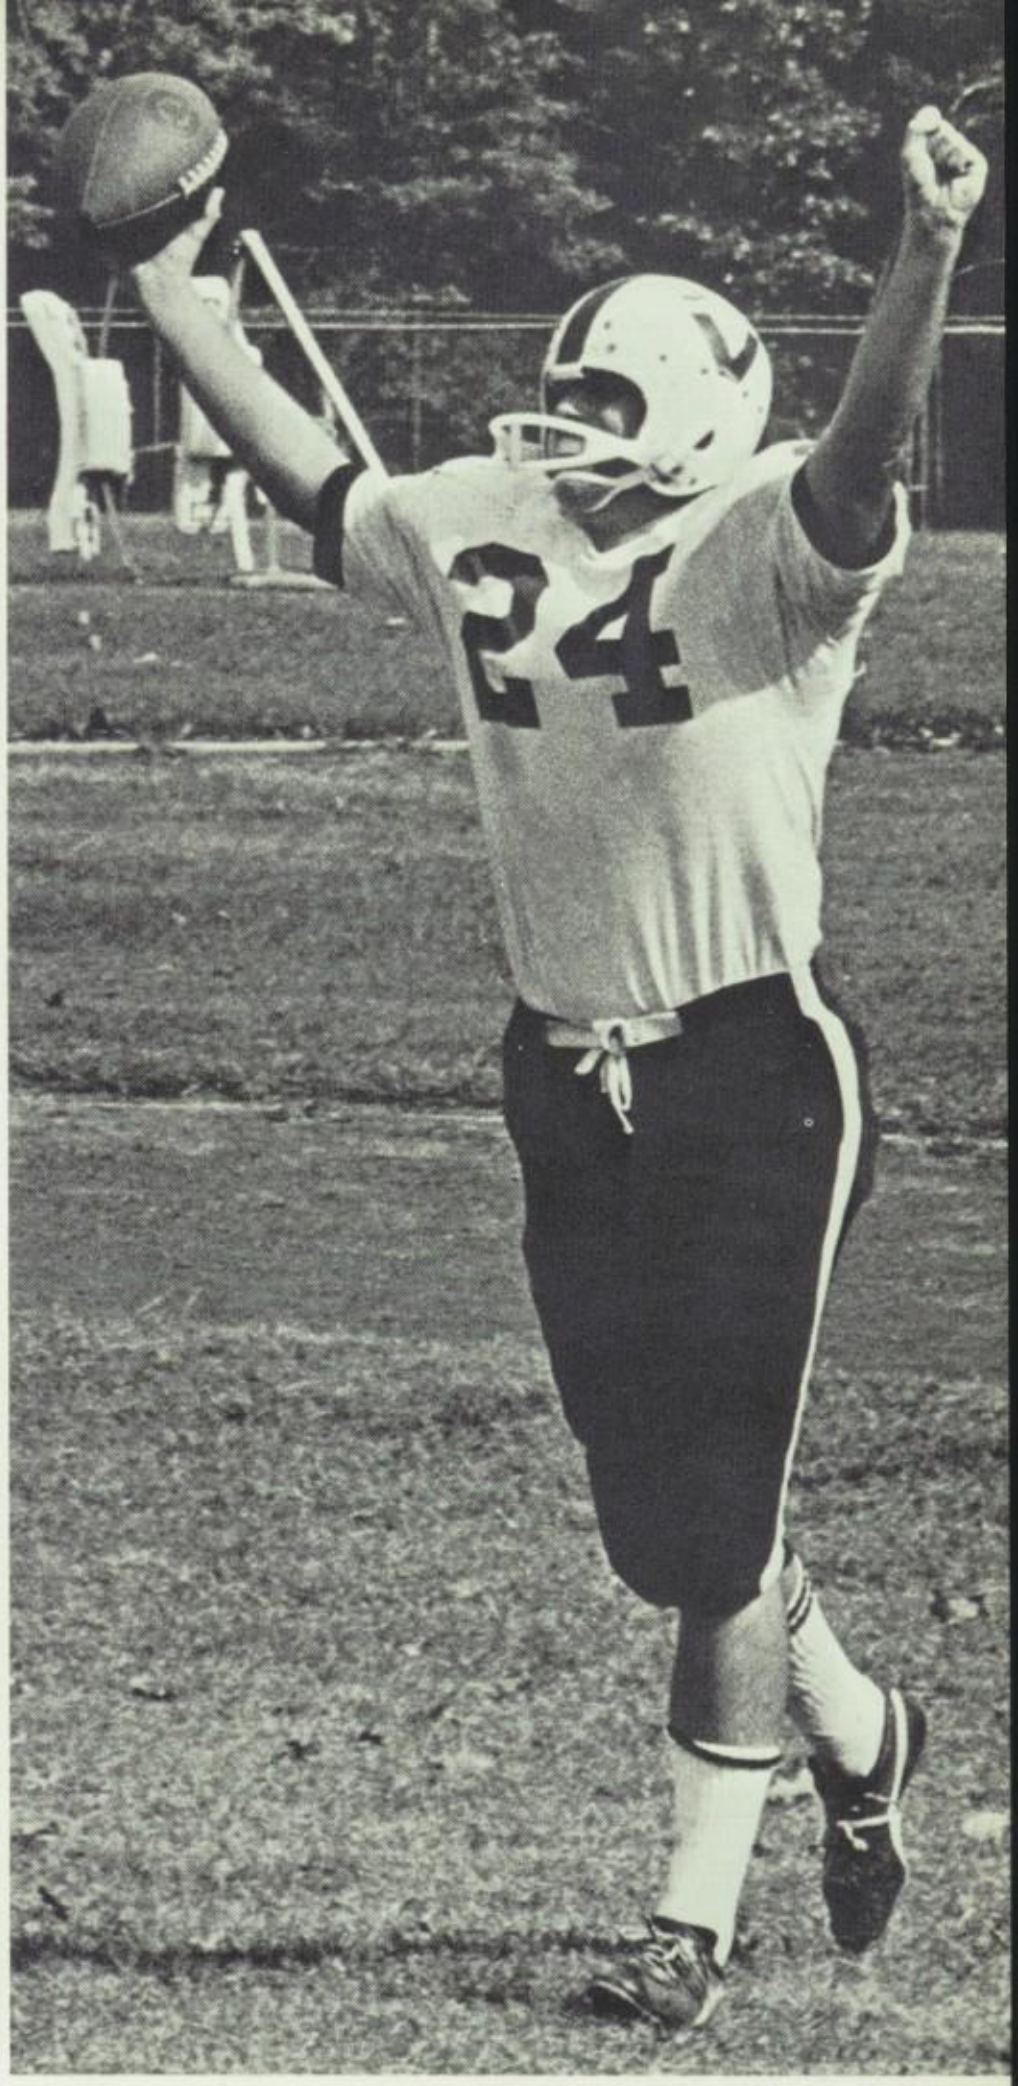
RIP 'EM UP! TEAR 'EM UP!



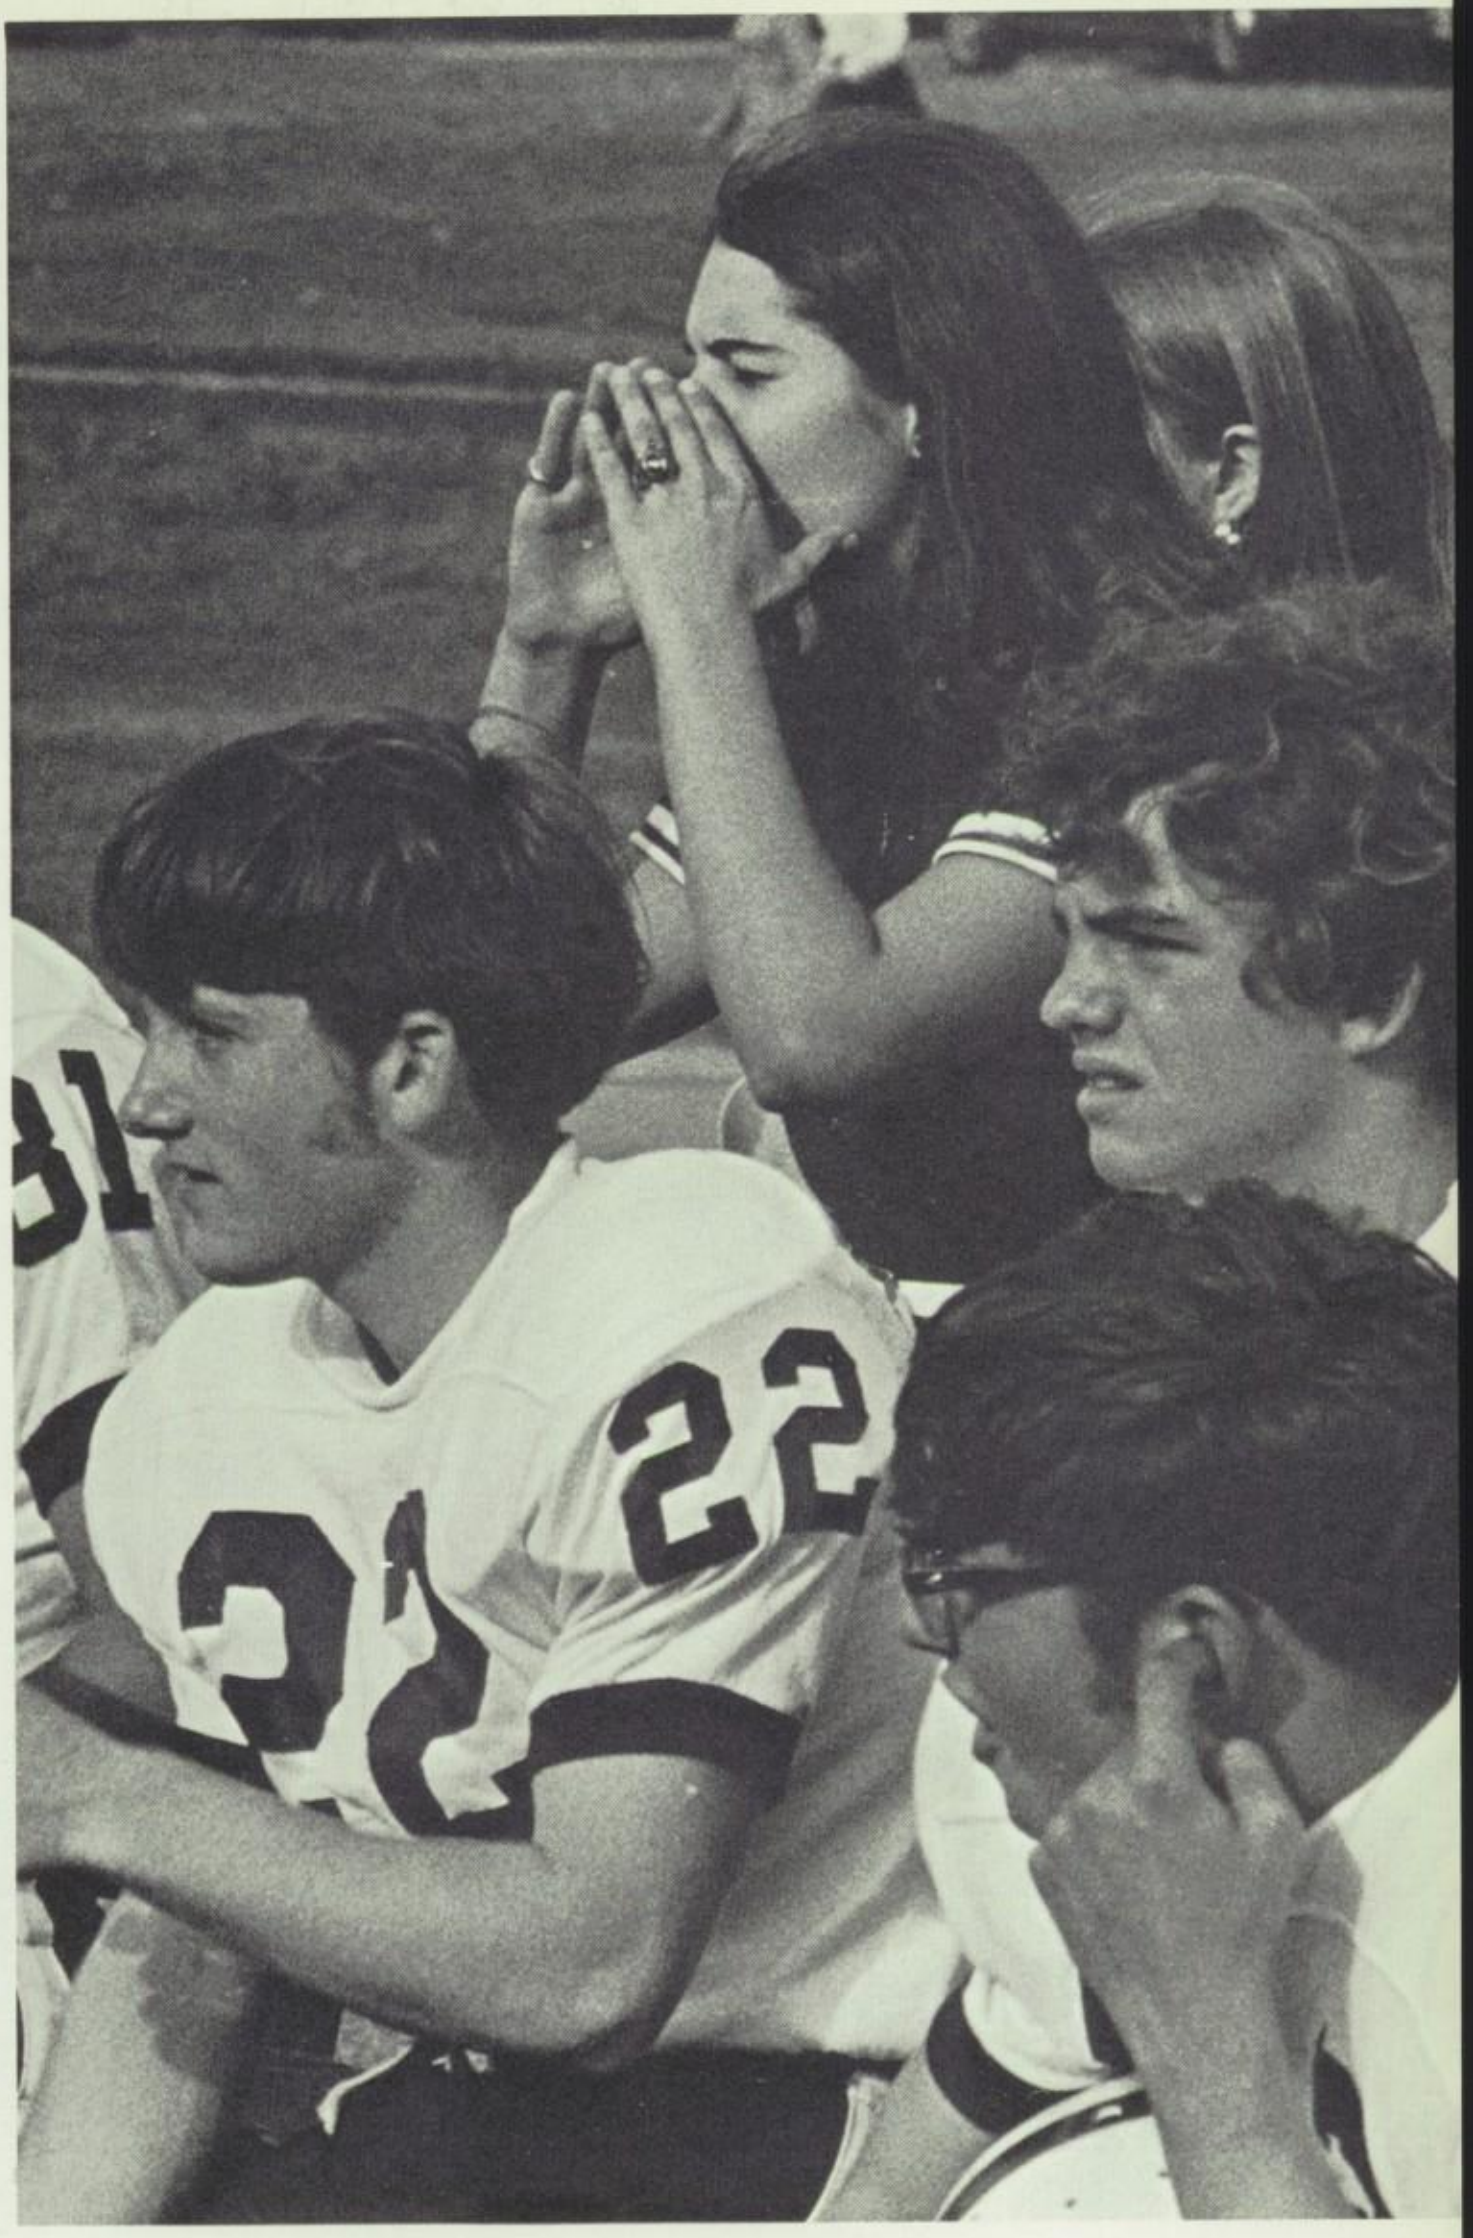


At least give 'em a little hell, Bishops.



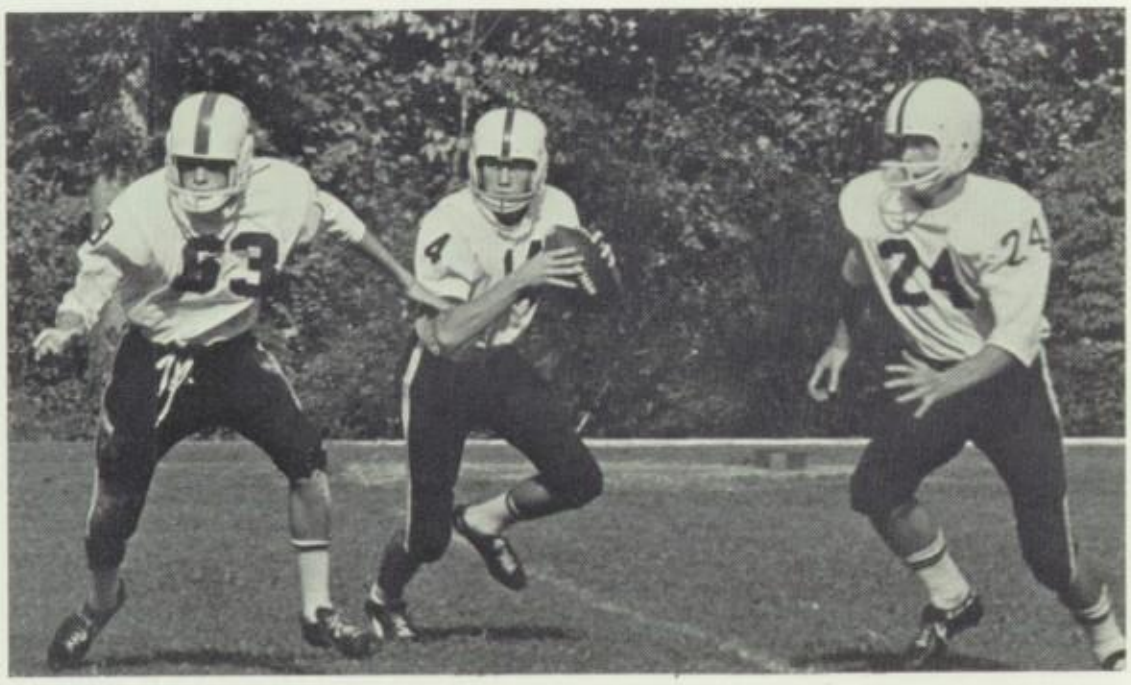
Despite an early win, the champs failed to achieve

the success of last year, but a final win

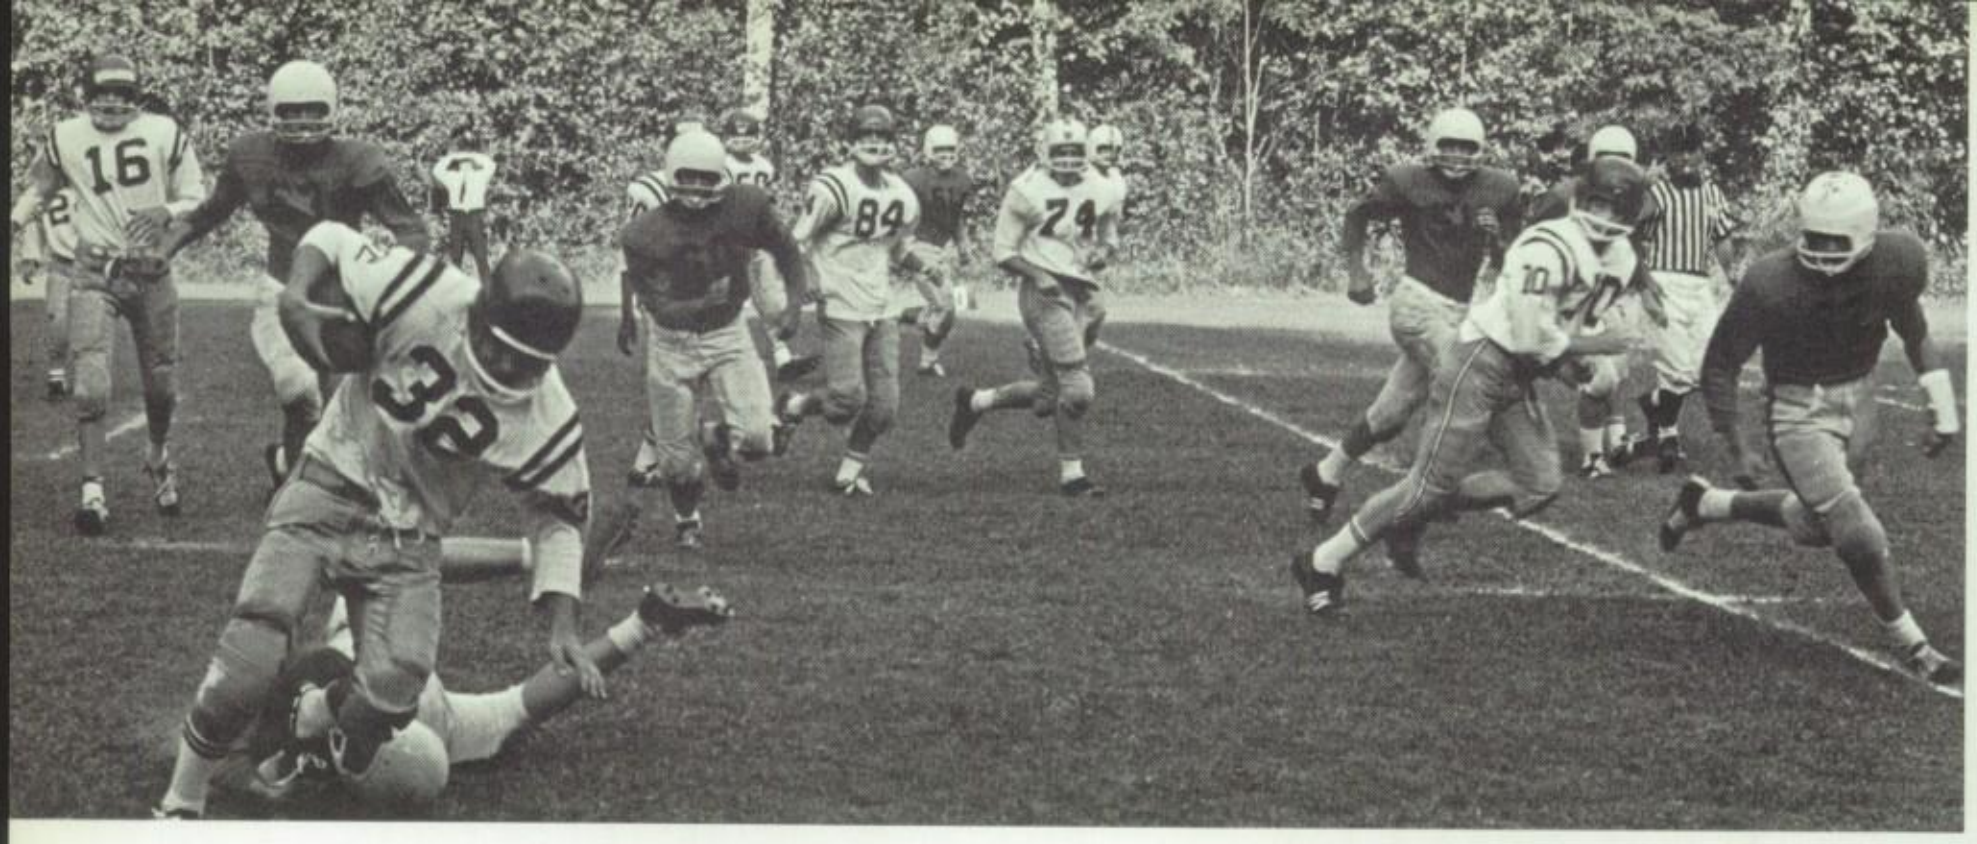


over Blue Ridge ended the season happily.

The cross. country team ran and ran and . . .



Victories over St. Chris and Woodberry by J.V.'s



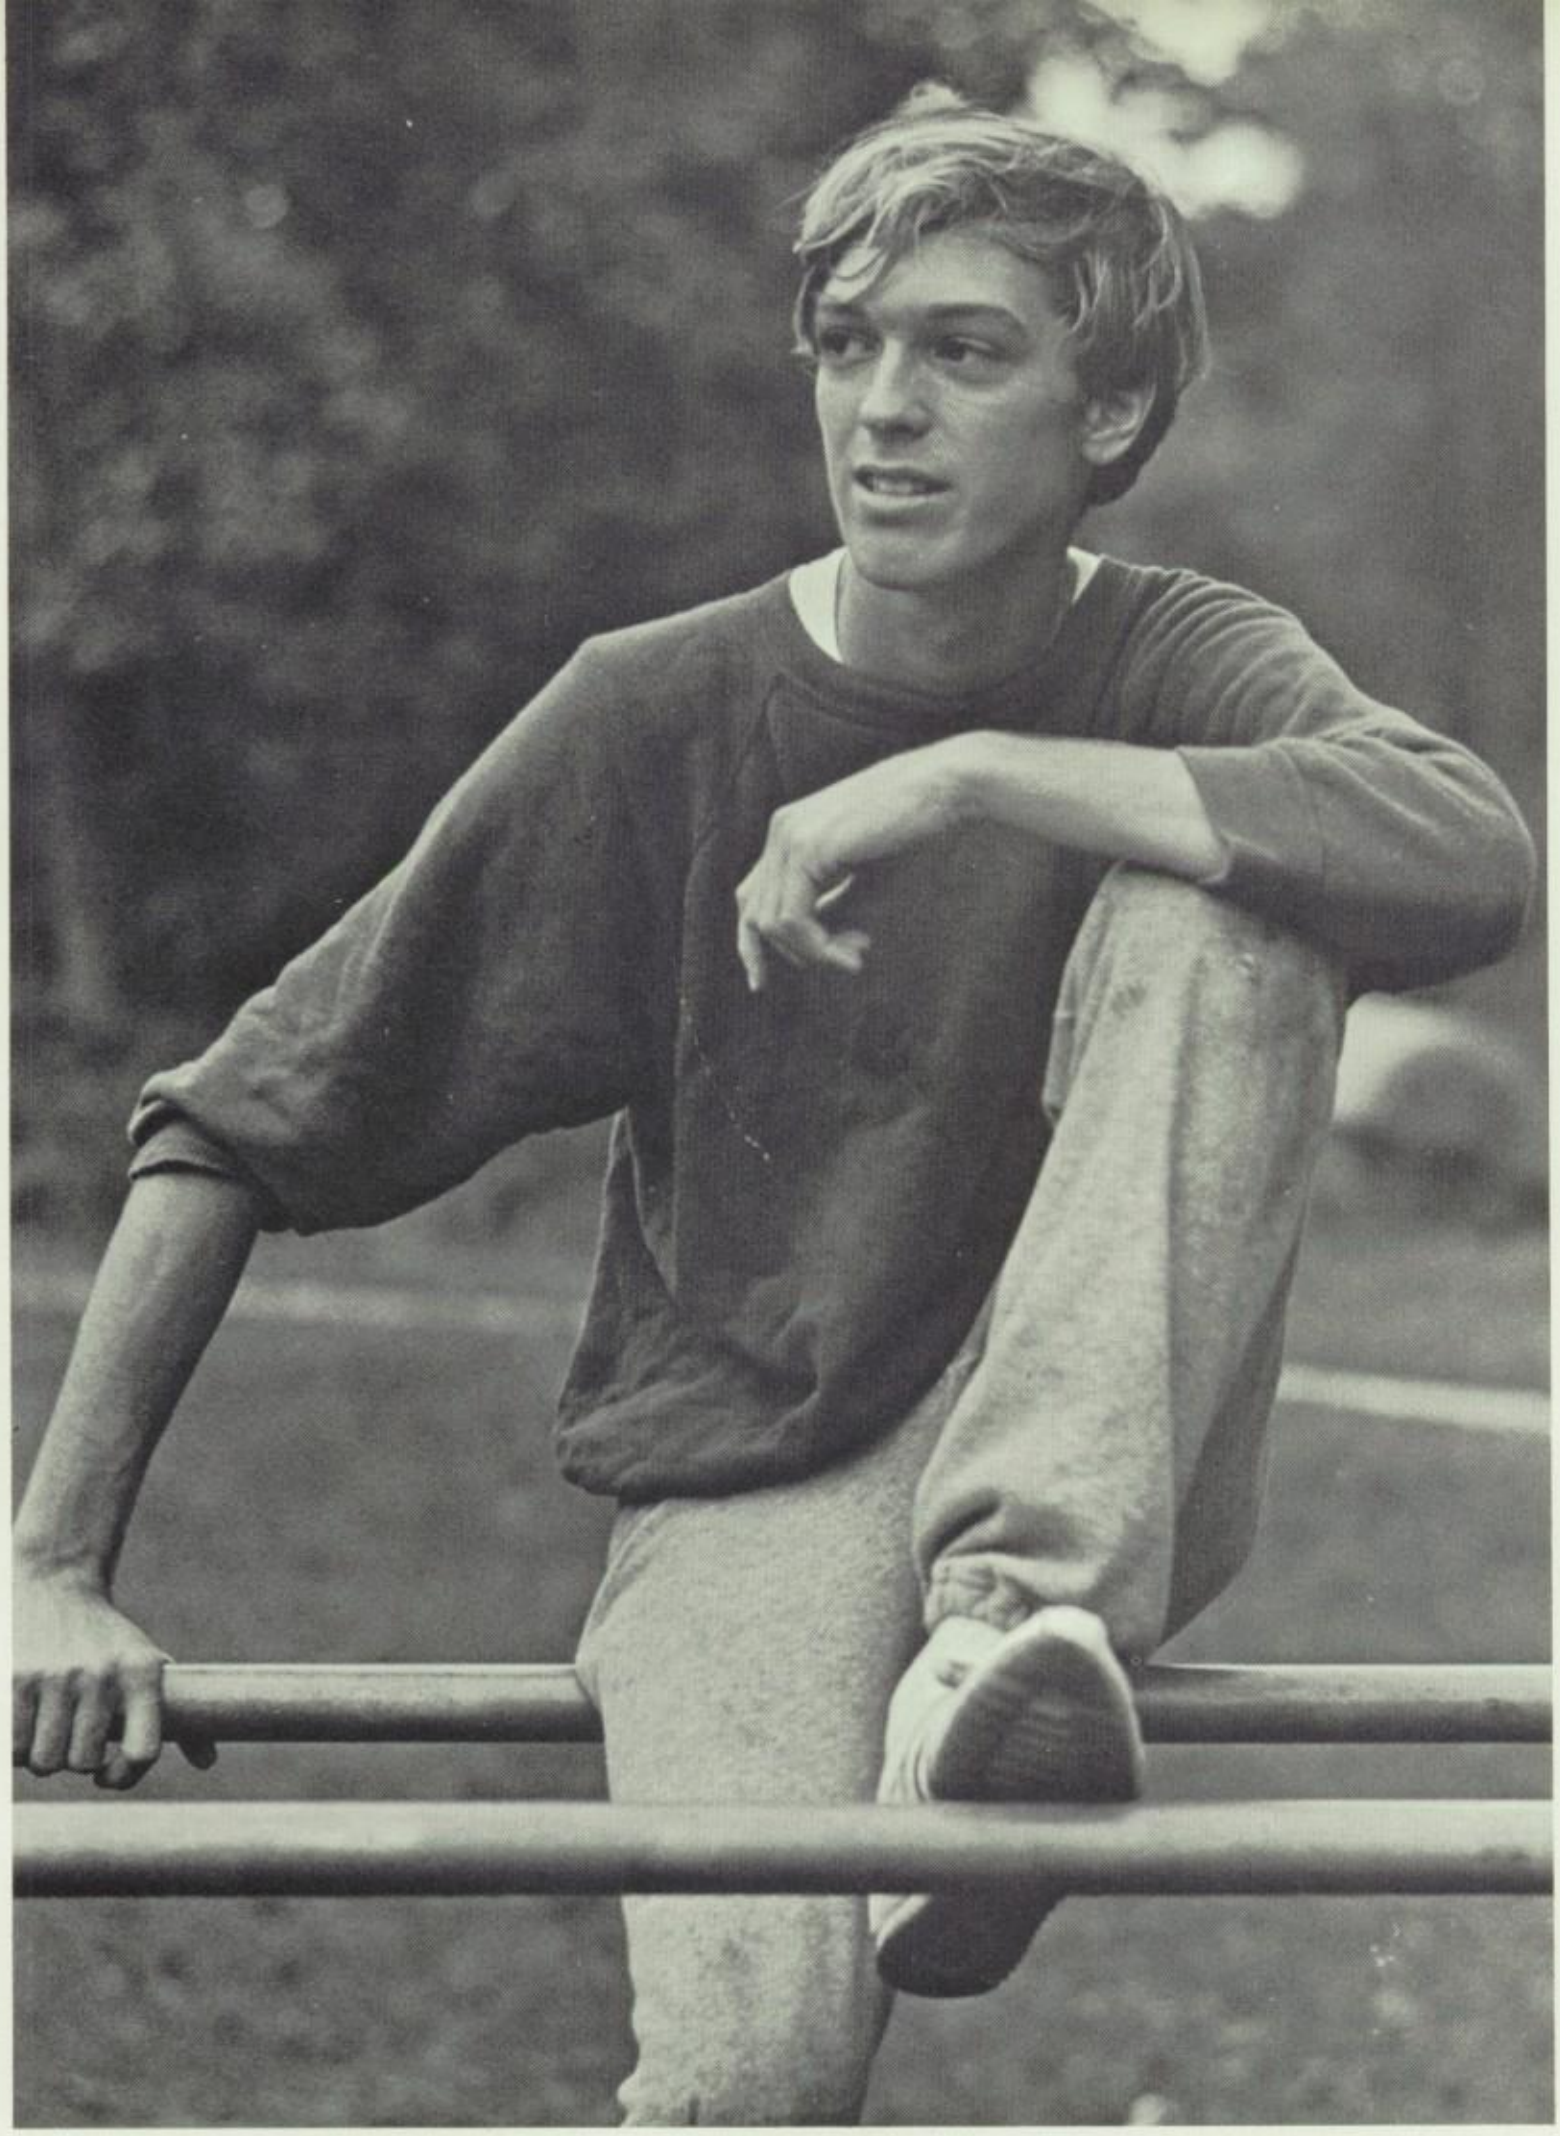
sharply contrasted with the freshmen's 3 year streak,

but our "Group" was the best in the Prep League!

One of the assets of U.E.S. is the close

relationship between students and faculty; another

is the intellectual stimulation offered by visiting speakers



and performers that appear throughout the year.
